

JONESBORO IN LINE FOR AERIAL PROGRESS

Jonesboro, Ark., is in the field to do her full share toward development of commercial aviation. Under auspices of the Jonesboro Chamber of Commerce, city officials and officials of the Memphis Aerial Co., the city's new flying field, was formally dedicated this week, during a two-day aviation meet.

J. G. Garrison, president of the Memphis Aerial Co., and Maurice Priest, veteran air pilot, made the trip from Memphis to Jonesboro in one of the new Curtiss planes. They carried a letter from Mayor Paine to the mayor of Jonesboro, and a letter from President Fitzgerald of the local Chamber of Commerce to the president of the Jonesboro chamber. In addition to distributing advertising matter for the city of Memphis, the flyers distributed a large amount of literature for the Southern Automobile Co., one of the city's new industries.

One of the features of the two-day celebration at Jonesboro was the showing of a new film, "The Great Air Show," which Locklear made last season in California for the Universal Film company.

In addition to establishing one of the best landing fields in the South, Jonesboro enthusiasts have perfected arrangements for organizing a flying club and purchasing a plane which will be kept in use on the local field for business and pleasure trips. The meeting was attended by several former army pilots and by a number of representatives from surrounding towns, who are interested in promoting commercial aviation.

How to Have Red Lips!

The girl with red lips and pink cheeks may be thankful, for both denote health—vigorous, forceful, magnetic health, and while it may be impossible for some to attain owing to morbid states of health, yet a vast majority of seemingly healthy young women and men are almost colorless, because of a lack of red blood corpuscles. When the blood is improved and enriched with these red corpuscles, the weight increases and a beautiful tint appears on the cheeks, while the lips assume a healthy red color. Many physicians and beauty doctors prescribe three-grain hypo-phosphate tablets which are said to invariably increase the red blood corpuscles after a course of treatment lasting several months. The nervous system and general health also improve rapidly. The best apothecary shops supply this tablet in sealed packages.

SEEK \$20,000 IN ONE DAY DRIVE FOR SEWANE

Friends of the University of the South, at Sewanee, Tenn., will be asked Sunday to subscribe \$20,000 to the endowment fund for support of the university. The committee in charge of the campaign at a general meeting Friday night at St. Mary's cathedral, decided to secure the balance of Memphis quota in a one-day drive, if possible. The total sought for the endowment fund is \$1,000,000. Not more than half of that amount has been pledged. The campaign in several states and cities having been delayed. The university is one of the great schools of the Episcopal church. Bishop Galer, during a recent visit to Memphis, asked that the alumni of Memphis and the members of the Episcopal parishes make an effort to finish the quota allotted to this city, which is only \$2,000. About \$14,000 was pledged last year.

At the meeting Friday night, the Rev. Charles T. Wright, rector of Grace church, the Rev. W. A. Jonnard, of Johnson city, and the Rev. J. H. New of Atlanta, spoke. Frank Hayden, the chairman of the general committee, outlined the Sunday campaign, which will be a house to house canvass of the members of each Episcopal parish, made by the vestry and aided by the nationwide teams which assisted in the church survey last December.

See Why Essex Set a World's Selling Record

Consider Its Unequaled Endurance Records—3,037 Miles in 50 Hours—1,061 Road Miles in 24 Hours

Essex in its first year set a world's sales record. That shows how men wanted and talked about what it offered.

But of chief importance to you are the qualities which earned this world selling mark.

You know what an uphill fight the car of average ability must make for even limited recognition.

What then was the Essex appeal that swept aside the natural doubts of buyers? It was not prestige, born of confidence in its makers. Their identity was not revealed. Essex was required to make its own name stand for the things men seek in a car.

And it won because of its fine performance, riding ease and endurance, qualities hitherto regarded as exclusive to large, costly cars. And further, because of its economy and convenience, which were exclusive light car advantages.

Essex Won Thousands Because of This

In beauty of line, in finish and luxurious appointment, Essex also has the advantage of being the product of those who build the world's largest selling fine car.

Essex has revealed performance ability never expected of a light car. It set the
